

# Parkinson's Disease Dementia or Dementia with Lewy Bodies?

## Consider Participating in the SHAPE Trial

The SHAPE Trial is evaluating if a new investigational drug (ATH-1017) is safe and effective in improving symptoms of Parkinson's Disease Dementia and Dementia with Lewy Bodies. ATH-1017 is designed to boost a repair and regenerative pathway for brain cells, promoting brain health and function.

## Who is Eligible?

**You or someone you know may be eligible if you:**

- ◆ Are between 40 and 85 years of age
- ◆ Have experienced memory problems and have been diagnosed with Parkinson's Disease Dementia or Dementia with Lewy Bodies
- ◆ Have a reliable support person or caregiver who is willing to participate in study visits, report on daily activities and oversee or help you with taking ATH-1017

- ◆ Study participation and study drug are free to all participants
- ◆ You may receive a stipend to compensate for time and effort for study participation including meals, travel, etc.

**Talk to your doctor about participating in the SHAPE Trial**
